Unless authorized and prepaid, return will be delayed in processing. It can read the vehicle diagnostic trouble codes, live vehicle sensors, actuate bi-directional controls, reset adaptations, and view inspection and maintenance system test results to quickly determine what service the vehicle requires. But without live data and bi-directional controls, you may not have enough information to properly perform the repair. With ACI OBD2 scan tool you can inspect your vehicle's compliance before you wait in line and pay for the test. We offer enhanced coverage options for 43 car brands: Ford Lincoln Mercury, GM-family, Chrysler family Toyota Lexus Scion, Mazda, Nissan Infiniti, BMW MINI, Land Rover, Honda Acura, Subaru, Mitsubishi, Isuzu, Porsche, Mercedes, Hyundai Kia, Jaguar, and Audi VW. Our enhanced Ford interface coverage is only matched by factory tools; we have support for 4,800 sensors selected from 94 systems.
